

Our first two years

SCHOOL ORCHARDS
AFRICA

Ikanga School 2011

Kidete School 2011

The trees have grown!

- From seedlings a foot high,
- In two years at Kidete School,
- We now have,
- Trees as tall as the students

The children see the progress

- Children at Kidete in 2011 showing off their seedlings
- And now!
- The same class tending an orchard in 2013

The children are learning

A class at Kidete with their teacher for a lesson in the orchard

Trees already bearing first fruit

A Guava tree in the orchard at Kidete School

Cisterns installed by TANCAN/SOAS

Kidete Cistern 2011

Cisterns . . .

Kidete Cistern – well used in 2013

Cisterns . . .

Ikanga Cistern this year

Cisterns . . .

One of our latest cisterns installed in 2013

Children get involved

Children filling buckets to water their trees

The fruit of our efforts

Mature trees like these are just a year or two away in Tanzania's climate

With your help . . .

SCHOOL ORCHARDS
AFRICA

- We are making a difference

For children like these . . .

From SOAS and TANCAN

Thank You!
